MARTIN, TENNESSEE, MONDAY, JULY 13, 1942

Number 14

On Business For Junior College

Paul Meek Confers With High College Officials—Miss Augusta Beatty Assistant Regional Librarian

Paul Meek, executive officer of the Junior College, spent two days last week, July 2 and 3, in Knoxville on business for the college. During his visit Mr. Meek conferred with the main officials on numerous future plans for the school, having a luncheon meeting for long-time planning. One of the main topics discussed was the planting of trees on the campus with relation to the building program already worked out for the long view.

During Mr. Meek's recent visit to Knoxville the appointment of an assistant regional librarian was made. Miss Augusta Beatty, of Tupelo, Miss., was given the position. Miss Beatty will assist with the regional library work in the Tennessee area of the Kentucky dam project territory.

Miss Beatty has her library degree from the University of Illinois library school. For two years she was a member of the library staff at the University of Arkansas. She has had a number of years experience in school and university library work, and was recently district library supervisor of 21 counties in Mississippi.

State Health Camp Coming To Martin

Will Be At Junior College July 13-14—One of Series Held Throughout State

A health and physical education camp will be held at Junior College Monday and Tuesday, July 13 and 14, under the auspices of the State Division of Physical Education, of which J. Frank Taylor, former superintendent of the Martin public schools, is state director.

This will be one of a series of similar camps being held in the major divisions of the state. The program has taken on a more serious aspect because of the poor physical condition among young men drafted for military service and found to have physical defects which could have been prevented or which can be corrected by such a course as provided by these camps.

Among those expected to be here to participate in the discussions are J. Frank Taylor, state supervisor of physical education; R. R. Vance, state supervisor of high schools; R. Lee Thomas, state supervisor of elementary schools; Miss Margaret Browder, supervisor of home economics; and Miss Bernice Hepper, along with other supervisors of these various programs.

Paul Meek and Paul Hargrave, executive officer and director of physical education, respectively, of the Junior College, will take part in the activities from a local standpoint.

Paul Meek, executive officer of the college, and members of the program, Paul Hargrave, Helen Watson, and Kay Moody, will act as instructors.

RECEIVES DOCTOR'S DEGREE

Dr. Gracie Walker of Livingston, Tex., who taught in the education department at U. T. Junior College a few years ago and has been teaching in Huntington College, Montgomery, Ala., recently received her doctor's degree from Harvard University. She has many friends here who will be interested in her achievement.

For having a wonderful time going to the creek, parties and picnics. Our gang even ventured into a cave recently and explored all of the passages. Besides having fun I'm canning and sewing. I am looking forward to going to Knoxville this fall.

Marjorie Franks

Rank of Major To Capt. C. E. Gatlin

C. E. Gatlin, formerly a member of the Junior College faculty and who entered the military service last summer as a captain, has been stationed in Hawaii for some time. Word received in Martin this week stated that Capt. Gatlin had been promoted to the rank of major. His many friends here will be glad to hear of his advancement.

Major Gatlin had a very interesting experience recently. He was walking down the street one day when he met Miss Juanita Jarmon, who was a student at Junior College when Major Gatlin was on the faculty. Miss Jarmon when she left Junior College took up nursing, and is now a lieutenant nurse in the army stationed in Hawaii. Needless to say these two former friends were happy to meet again.

RELIGION IN LIFE WORK

The Junior College is justly proud of the success of Religious Emphasis Week, which was held on the campus last February. Altogether a student project, the activities of the week included platform addresses, fireside chats, forum discussions, classroom appearances by visiting religious leaders, and personal interviews with trained religious counselors. A total of five prominent Christian leaders from all over the state contributed to this comprehensive period of religious emphasis, thereby touching every student on the campus.

Next Sunday afternoon at 2:30 o'clock the student executive committee, composed of Harry Claybrook, Mary King Webb and Fay Lippert, together with an advisory council of several other students, will meet to formulate tentative plans for the Religion in Life Week to be held later on this school year.

The Junior College encourages religious life on the campus as well as regular attendance at the local church of the student's choice. Because of the close working relation between local congregations and the college student body, all of the local pastors have been invited to meet with these student leaders in this initial planning meeting. Paul Meek, executive officer; Professors S. R. Woods, J. E. McMahan, C. C. Cravens and Miss Nina Swindler will represent the faculty.

The executive committee plans at this meeting to consider the selection of a theme, the setting of a tentative date, and to invite nominations for the key speaker, with additional and more complete plans to be perfected at a later date.

ROBERT JEROME WALKER, JR., of Martin, was at Camp Blasing, Okla., on May 14, was elected Sergeant Walker and heading right up.

HONOR STUDENTS AT U. T. JUNIOR COLLEGE—Selected as outstanding students at the University of Tennessee Junior College at Martin during the past term were (back row) Eugene Morris, Martin, best liberal arts student; Preston McDow, Whitehaven, best engineering; Everitt White, Whitehaven, outstanding sophomore; Myra Parsons, Christiansburg, best variety; (middle) Ann Seay, Paris, best girl speech arts; Elizabeth Higgs, Martin, best girl intramural; Jamie Lawler, Trenton, best home economics; Katherine Moody, Tiptonville, best education; front row, Robert Koo, Shanghai, China, best boy speech arts; Mark Wilkerson, Pulaaki, best agriculture student.

Volette Editors

Kathryn Moody of Tiptonville, is editor of the summer issue of The Volette. Charlotte May Bright is associate editor. Mrs. Myrtle Phillips, of the faculty, collected and edited the alumni notes of this issue. Mrs. Phillips also gathered and wrote the items on the Junior College boys in the armed service.

NEW INDUSTRIAL ARTS BUILDING GREATLY USED

The new \$100,000 Industrial Arts Building has already seen many and varied uses, and had only been occupied since March 1942. Besides regular engineering and mathematics classes, the Spring Civil Pilot Training ground school was conducted in this building. The three weeks of Civilian Defense classes for eight counties was held here. The Martin Squadron of the Civil Air Patrol has been using it since March for regular Monday night meetings. The agricultural department is now teaching dairy laboratory in a completely equipped lab in this building. We have just been informed that the well lighted and ventilated Farm Machinery Laboratory has been selected for the teaching of a large group in the use of sewing machines. We should be very proud of such a necessary and usable addition to the buildings of the campus.

B. E. FARRAR COMPLETES WORK AT BLUE MOUNTAIN

Prof. B. E. Farrar, head of the English department at the Junior College, will complete his summer teaching at Blue Mountain College, Blue Mountain, Miss., next week. Mr. Farrar reported on a recent visit to the campus that he was enjoying his work very much, though he is teaching a pretty heavy load. He said Mrs. Farrar returned to Blue Mountain with him for a brief stay.

FLOYD BURDETTE, of Martin, was reported last March at Jones Air Field, Bonham, Texas.

GOV. COOPER TO MAKE DEDICATION ADDRESS

Although time is short, Gov. Cooper has perfected for the exact date as yet set a dedication program for the new Industrial Arts building in order way. This building was recently completed at the Junior College campus at a cost of \$75,000. It is a magnificent plant, one of the best of the state on any campus.

Governor Prentice Cooper through whose generosity the building was erected, will be invited to make the address when the program is finally worked out. Mr. Meek stated Others who will be invited to take part in the dedicatory ceremony will be Major Tom Allen, president of the Memphis Water Department and a member of the Junior College committee and the engineering committee of the University Board of Trustees, and the Hon. George Rowlett, local trustee of the Junior College and also a member of the University Board of Trustees.

NEW ENGINEER COURSE OFFERED SECOND SIX WEEKS

Mechanical Engineering 131 will be offered for the first time at the Junior College beginning July 17th. This is an elementary course in Machine Shop Practice. Students will take up the use of cold chisel, file, metal lathe, milling machine, drill press and shaper. One project requires all the above machine tool processes, including thread cutting on the lathe and with the steel tap. This is required course in all branches of engineering and will be quite an addition to the curriculum of the school especially at a time when our country needs trained machinists. The Industrial Arts department or Engineering department already has eight candidates for this course.

WOODS FLIES TO NASHVILLE

S. R. Woods recently made a solo flight to Nashville. The Junior College ground instructor had an uneventful but interesting solo. On his trip, following a conference with authorities in Nashville, Mr. Woods was granted an additional \$4000 for developing the CPT program at the Junior College.

ENGINEERING POPULAR

Engineering courses will be well filled next fall. Due to the new building and the addition of the machine shop, together with the war emergency, many young men are considering engineering training at our institution.

LIBRARY PROGRAM GROWS Apace

Students registering in the fall will find the library in enlarged quarters, and its program expanding steadily.

The librarian's office will be set up in the office formerly occupied by B. E. Farrar, and regional library headquarters will occupy the greater part of the former English classroom adjacent.

The staff of the regional library arm of the service is being enlarged by the addition of an assistant regional librarian, Miss Augusta Beatty of Tupelo, Miss. Miss Beatty has had a successful experience as supervisor of library development in a large district of Mississippi and is a valuable addition to the Junior College faculty.

Miss Robt. Wenden, a Junior graduate of the college, has been added to the library staff as secretary, succeeding Mrs. Eugene Morris, resigned, and Miss Rebecca Corley is holding temporarily the position left vacant by the resignation of Mrs. Mildred Parrish Leeman. Robert Wilson, of Martin, is freshman student assistant in the library.

KROLL TO HUCKLEBERRY MOUNTAIN COLONY

H. H. Kroll, after finishing teaching at the Junior College the first half of the summer quarter will go to Huckleberry Mountain Artist's Colony, near Asheville, N. C., to teach short story writing and novel writing, during the rest of July and the whole of August. At the same time Kroll expects to write the first draft of his new novel, a book dealing with the exploits of John A. Murrell, noted outlaw of West Tennessee about a hundred years ago. Kroll's novel "The Rider on the Bronze Horse," is to be published by Bobbs-Merrill this summer.

Talking Film At Junior College

Dairy and Poultry Facilities Used For Making Educational Pictures—Funds From Rockefeller Foundation

Swift & Company and the U. S. Department of Agriculture, working with Professor J. E. McMahan, head of the agriculture department at the Junior College and Professor Newell Thompson have recently used the dairy and poultry facilities of the University of Tennessee Junior College as a basis for an educational picture. This film offers one of the most important facts concerning the proper management of poultry and dairy farms.

Through the Rockefeller Foundation, Swift & Company received funds which made it possible for this national talking picture to be filmed. Mr. Tompkins and Mr. McMahan, the photographers, represented the Spot Film company of New York City. Mr. Matthews, a director representing Swift & Company, was also a visitor on the campus while the filming of the picture was in progress.

Professors McMahan and Thompson are featured in the picture. The film will be shown in this community and surrounding ones at a later date.

New Civilian Pilot Training Program

The University of Tennessee Junior College, after two years' experience in training Civilian Pilot Trainees, finds itself admirably prepared to meet the wartime program of training pilots for the United States Army.

The new Civilian Training program will operate under the Civil Aeronautics Administration as it trains men enlisted in the Army. Enlistment is a prerequisite to participation.

Men who have reached their 27th, but not their 37th birthday, are now eligible for this training. These men will make a great army of skilled pilots who will relieve the younger men for combat duty.

Men who have reached their 18th, but not their 27th birthday, are eligible, after, for one reason or another, they have failed to be accepted as aviation cadets.

Forty per cent of our quota must become trainees as glider pilots. The first course, however, and the second course to follow, will be with power planes.

Compensation for board, room, and transportation is provided to the extent of \$100 for the course of eight weeks.

The first course will begin about July 15, and the second course about September 15.

Gill-Dove Airways, Martin, Tennessee, will provide flying instruction, and the ground school will be conducted by the University of Tennessee Junior College and will be made up of 24 hours including meteorology, navigation, physics, radio code, military science, and other subjects. It is a full-time course which will require one full time as an enlisted man. Interested persons should write to Paul Meek, Coordinator, U. T. Junior College.

JAMES NORMAN DENT, of Martin, is at Menlo Park, Calif., where he has been taking training for the past month. He will soon begin further work in the physiological department of the Aviation School of Medicine. Jimmie is now a Doctor in the field of Biology, having completed graduate training at Johns Hopkins University, where he was on the research staff at the time of his induction into service.

BEN W. ROWLETT of Martin, is a petty officer in the U. S. Navy, at present stationed at Tiburon, California. Until he is assigned regular duty Ben is serving as storekeeper for supplies at that station. Students of 1934-39 will also remember Ben, as he returned to the Junior College for some special work in agriculture that session.

Religious Life On the Campus

W. F. M. SCHIKE, pastor of the Methodist Church, Martin, is the speaker at the religious service on the campus.

The service will be held in the gymnasium at 8 p. m. and will feature a special program of songs and prayers. The speaker will discuss the importance of religion in the life of a citizen.

The service is open to all students and faculty members. It is hoped that a large number will attend and participate in the service.

Alumni News

1927-28

LIEUTENANT LIAVIL LYNN, of Dresden, was serving in the U. S. Army at Pearl Harbor at the time of the December 7 attack. He and his young son were captured by the United States forces after war broke out.

1930-1931

CLAUDE H. ESTUTTER, of Dresden, was reported missing and was later listed as killed in action. He was inducted into the army in April 1942. He is reported to be alive.

1931-1933

GEORGE W. ARDNER, Jr., of Martin, was an officers' trainee at Ft. Harrison, Ind. He was in the navy now. He is reported to be back home on a brief leave of absence during which time he married Miss Anna of Dresden.

THOMAS EDD POYNER, of Martin, was located at Camp Sebring, Florida, the last time we heard from him.

PAUL EDWARD SUMMERS, of Lexington, is somewhere across the line. He is a member of the U. S. Navy now and we would not be surprised to know that he is in command of the ship.

1932-1933

AUSTIN PRANN, of Dresden, was in the U. S. Army. He was reported to be in the U. S. Army. He was reported to be in the U. S. Army.

1933-1934

FERGUSON ROFF, of Martin, was in the U. S. Army. He was reported to be in the U. S. Army. He was reported to be in the U. S. Army.

1934-1935

Mrs. WILLIAM BROWNING, of Martin, was in the U. S. Army. She was reported to be in the U. S. Army. She was reported to be in the U. S. Army.

LIEUTENANT TERRY S. O'NEAL, of Martin, was in the U. S. Army. He was reported to be in the U. S. Army. He was reported to be in the U. S. Army.

JOHN YOUNG SAMMONS, of Martin, was in the U. S. Army. He was reported to be in the U. S. Army. He was reported to be in the U. S. Army.

1936-1937

JOHN N. HART, of Martin, was in the U. S. Army. He was reported to be in the U. S. Army. He was reported to be in the U. S. Army.

JOHN AYER, of Martin, was in the U. S. Army. He was reported to be in the U. S. Army. He was reported to be in the U. S. Army.

JOHN HOWELL BARNHILL, of Martin, was in the U. S. Army. He was reported to be in the U. S. Army. He was reported to be in the U. S. Army.

the Ancha be address to the 1942 class.

MACON H. BYARS, of Dresden, was an instructor at Radolph Field, Texas. Macdon went from the Junior College to complete his college work at Murray State College, Murray, Kentucky.

EUGENE CALHOUN, of Union City, was with the Air Corps Training School at Glendale, California, in April according to information received by Mrs. Blackman at that time.

HERSCHEL THOMAS ELLIS, of Martin, went to Fort Oglethorpe, Ga., for officers' training in May. Herschel graduated from Memphis State College in 1939.

JAMES NEWTON HALL, of Martin, was instructor at the Flying Field, Randolph, Texas, until June 1. He has been promoted to First Lieutenant, and on the first of June was sent to take training in the four-engine school at Sebring, Florida, where he expects to remain for six to eight weeks. J. N. graduated from the engineering department of Purdue University, and has since his graduation married THELMA STIGLER, who spent 1934-36 as a student at the Junior College, and who later graduated from Union University at Jackson. Thelma and J. N. are for the present located at Hotel Sebring, Sebring, Florida.

GEORGE DOUGLAS MAYO, of Samerville, is now at the University of New York where he is taking Naval Officers' Training according to news given us by Mrs. Blackman this week.

LIEUTENANT PAUL EDGAR FIGUE, of Martin, who graduated from West Point in June 1941, is now stationed at Fort Stephens, Oregon, with the 15th Coast Artillery.

GEORGE A. PINNER, of Covington, was at the Midland Army Flying School in Texas, when we last heard from him, March, 1942.

CHARLES MICHAEL RICHMOND, Mike, of Eads, is now at Keesler Field, Mississippi. Mike was inducted into the army in February 1942.

1936-1937

ALBERT SWEARINGEN, of Sharon, is in Australia according to a cablegram received by his wife some weeks ago. Mr. and Mrs. Swearingen live in Chicago, Illinois.

EDWIN LIEUTELLE SUMMERS, of Somerville, is taking flying training at a field in Florida. WILLIAM OTWAY SEYMOUR, of Paris, recently graduated at the U. S. Naval Air Station, Jacksonville, Florida, receiving his commission as Ensign in the Naval Reserves.

CHARLES LAWRENCE HALL, of Covington, was a member of Class 42-D, Randolph Field, Texas.

HAYDEN EDWARD PHEBUS, of Eads, was at Camp Forrest, Tenn., a Tennessee on last report received about him.

JAMES DOUGLAS PETTIBREW, of Parsons, was in Camp Forrest, Tennessee in March.

GEORGE OLLIN LEWIS, of Parsons, was with the 30th Squadron at Keesler Field, Mississippi, in March.

PHILIP F. HERT, of Martin, was at Camp Forrest, Tennessee in March 1942.

ALEXANDER HENRY HARVEY, of Sevier, is reported to be in Australia.

RAYMOND HARDER, of Union City, is reported as being in the U. S. Army, stationed for the present at Monaca. The name of the station is not on record.

RICHARD GORDON GOUBARD, of Grand Junction, is also with the armed forces, according to news received from Eldridge Bruce in May.

WILLIAM HOWARD CRAVENS, of River, has been an instructor in the Army Air Corps for some time stationed at Pensacola, Florida at last report. Bill is now a married man, believe it or not.

WILLIAM LARIMORE COLVETT, of Crockett Mills, was inducted in the army October 2, 1941, at Fort Oglethorpe. From there he went to Camp Wheeler, Macon, Georgia, and the latest account placed him at Fort Jackson, South Carolina.

FRED NEAL COLVETT, of Crockett Mills, is now at Fort Oglethorpe, Georgia. GEORGE STUART BRAMHAM, of Union City, was at Fort Still, Oklahoma, in January. CHARLEY MACK BERRY, of Dyer, is with the Marines now. Our latest address for him is a January address, and placed him at the Marine Corps Base at San Diego, California.

ROBERT GRAY ANDERSON, of Trenton, was at Fort Lewis, Washington with the E. C. Field Artillery.

1937-1938

WILLIAM CLAUDE ARNOLD, of Nashville, Red, Arnold to you, is now located at Keesler Field, Mississippi, according to news received by Professor Cravens this week.

FRANK D. DODD, of Martin, is at Fort Knox, Kentucky, where he is at present Acting Sergeant for the Tank Division. Frank is trying for the Air Communications branch of the service, but must wait for an opening. He will begin officers' training for a commission August 1.

SAMUEL C. GARNER, of Maxwell Field, Alabama, visited the campus March 25. Sam is completing his pre-flight training about August 5, and hopes to go right on from here into the advanced training. With Sam when he visited us in March was a very attractive lady, and we now hear that Miss Connie Selfrick, of Springfield, Ohio, became the bride of Cadet Samuel Garner on March 17, 1942, so that, had we known it, we were meeting Mrs. Sam Garner all the time.

HARRY EARL GOFF, of Memphis, was second lieutenant of the Army Air Corps way back in November, 1941. Our last address for him was Ellington Field, Houston, Texas.

MARTIN THOMAS GRIFFIN, of Newbern, is now at Keesler Field, Mississippi, taking training for the Air Corps.

FRANK ODELL HENLEY, of Trimble, is in Hawaii, where he has talked with Professor C. E. Gatlin, now Major Gatlin, of the Tank Corps. Hardly did Frank or Professor Gatlin expect to meet in such a fashion five years ago.

CHARLES D. KING, of Obion, is at Tomah, Wisconsin, flying transport. He married MARTHA ALLEN, former U. T. student '40, June 13th at Tomah.

HARRY HARRISON KROLL, Jr., of Martin, enlisted in the radio division, Civilian Technical Corps, Montreal, Canada. After a short time in Canada Harry was sent over, and his letters now come from somewhere in Scotland. He is still very much interested in radio work and is getting some excellent training along that line.

PAUL EVERETT MELTON, of Brighton, at last accounting, was at Camp Livingston, Louisiana.

NATHAN HARRELL MORAN, of Dresden, is with the First Pursuit Squadron, Elgin Field, Florida.

ARTHUR PEEBLES MORRIS, of Paris, wrote us in April, from Fort Lewis, Washington. He has been with the cavalry division, we understand.

CHERRY NEWSOME, of Newbern, returned to the campus on a short furlough, looking every inch the soldier in his army uniform. He was then at Maxwell Field, Alabama.

JAMES HARRY PHILLIPS, of Jackson, is at Keesler Field, Mississippi with the Air Corps, training for some phase of mechanics.

JAMES HENRY QUENICHET, of Germantown, was in the Class 42-D, Randolph Field, Texas. This class made a record for itself in the speed with which it took the paces and finished the course.

JAMES MILTON RAINES, of Grand Junction, is with the armed forces, according to information received from his home town.

neighbor, but his exact location was not known.

ROBERT MANVILLE STALLINGS, of Halls, is now at Keesler Field, Mississippi.

ROBERT THOMASON WHITCOMB, of Martin, is an instructor in airplane inspection, at Chanute Field, Illinois.

1938-1939

JOHN D. ATKINS, Jr., of Cottage Grove, recently dropped in to renew old acquaintances at the Junior College. He had just graduated from Texas A. & M., where he had enlisted with the Naval Reserves, and was on his way to Johns Hopkins University where he hoped to study some Business Administration.

JO DUDLEY BELL, of Gleason, was with the 62nd Pursuit Squadron, Bendix Field, New Jersey, when last heard from, in February.

JOHN DRAPER BUTLER, of Trenton, is listed as among the armed forces but his address is not on our records.

WILLIAM ISAAC BUTLER, of Martin, was in the Philippine engagement, and is listed among those missing. His family hopes to receive news of him as he may have been taken prisoner. His Junior College family also hopes he may be located and found to be alive and well.

JERRY CROCKETT, of Big Sandy, was taking training for the Air Corps at Maxwell Field, Alabama, in February.

HARRY MCGEE EDWARDS, of Gleason, is now undergoing his preliminary flight training at Maxwell Field.

JOHN JACKSON FREELAND was attending the Bombardier School, Shaw Field, Texas, in March, according to information furnished by Mrs. Blackman.

WILFRED OLDHAM HEAD, of Martin, is now assigned to the camp library duty at Keesler Field, Mississippi. James Glasgow, our informant, writes that it seems like home to find Wilfred in the library, as always.

WILLIAM A. JAMESON, of Covington, on latest accounts was attending the Air Corps Technical School, Keesler Field, Mississippi.

JOHN CALVIN KELLEY, of Covington, is Lieutenant Kelley now, and is completing his advanced flying instruction at Albuquerque, New Mexico.

ROMIE WESLEY KENDALL, of Martin, is at Fort Oglethorpe, Georgia.

RICHARD HAFFORD NASH, of Paris, received his commission as Second Lieutenant in the Army Flying School at Midland, Texas.

JOHN FRANKLIN NIX, of Trenton, sent a card to Professor Cravens in May, postmarked somewhere in Scotland. "Nick" is with the armed forces there.

ALBERT GERALD PARKER, of Dresden, when last heard from, was in San Juan, Puerto Rico.

ANDERSON NEELY RENSHAW, of Whitehaven, was at Fort Bragg, North Carolina, in February.

JOHN SMITH ROBINS, of Decaturville, wrote last December from the Technical School, Keesler Field, Biloxi, Mississippi.

HAROLD SMITH, of Martin, was army bugler at Fort Knox, Kentucky, in February.

LLOYD ALVA SMOTHERS, of Camden, is with the U. S. Field Artillery Regiment, Replacement Center, Fort Still, Oklahoma.

JESSE MAURICE TIDWELL ("Mush"), of Dickson, was Staff Sergeant at Fort Jackson, South Carolina, in March, when he visited the campus with his wife and baby daughter, Annabelle. Mrs. Tidwell will be remembered as Gus Woods.

JOE BROWN TURNER, of Martin, is with the technical division of the Army Air Corps, Keesler Field, Mississippi.

HUGH WALKER VINEYARD, of Dickson, was inducted in the army April 7, 1942, but at the present writing we do not have his address.

HARRELL EDWARD WEBB, of Paris, when last heard from was with the Field Artillery, Battery F, Fort Still, Oklahoma.

WILLIAM LANCE WILEY, of Dickson, was radio operator at Scott Field, Illinois, in April.

1939-1940

LEONARD C. BOWERS, JR., of Hornbeak, landed in Australia in March, according to a cablegram received by his mother. Since then she has had several other cables and in each he said he was well and happy. Leonard volunteered December 1940 as a mechanic in the Army Air Corps, and is very proud of the training he has been receiving. He still plans to return to college and complete his work when he has had his part in helping Uncle Sam complete the war job.

ROBERT HOUSTON BRATTON, of Duck River, is now at Keesler Field, Mississippi.

JOHN WATSON BRUCE, of Grand Junction, is somewhere overseas; exact address unknown.

CHARLES THOMAS CANNON, of Fulton, Kentucky, is at the University finishing his senior year's work as a member of the Naval Reserve, Class V-7.

WILLIAM ELLIS DENHAM, of Sarasota, Florida, is with the U. S. Navy now, according to reports we have.

JACK DONOHO, of Martin, was reported at the U. S. Naval Air Base, Jacksonville, Florida, in May.

WILLIAM REEVES GARNETT ("Rut") is now in the Army Air Corps, and when last heard from was in Camden, South Carolina, in training.

JAMES MONROE GLASGOW, of Dresden, is now at Keesler Field, Mississippi.

MAV HARTWELL HARPER, of Lafayette, was a Naval Aviation Cadet at the Flying School in Jacksonville, Florida, as far back as January 20.

WARREN HUNT, of Fruitland, was last reported at the Air Base, in Savannah, Georgia.

RICHARD MALOAN, of Dresden, is a member of the Coast Guard, at present stationed on the Tennessee River.

GUY TUGGLE NUNNALLY, of Grand Junction, is somewhere overseas.

PERSHING PATTERSON, of Rutherford, is with the Naval Air Corps.

NED PENTECOST, of Martin, graduated at Kelly Field, Texas, in April 1942, and is now Lieutenant Pentecost, who hopes to be connected with the photographic branch of the Information Division of the Air Corps. For this work Ned would fly alone over enemy territory and make pictures of the terrain.

LYTLE RAY PERKINS of Adamsville, we understand is with the Army Air Corps, but his training school is not on record.

ELLSWORTH LIONEL REASONS, of Gadsden, enlisted in the navy January 15, 1942. He was sent to the Naval Training Station Service School, at Norfolk, Virginia.

HARRY BORDEN ROBERTS, of Greeneville, Tennessee, has been attending the U. S. Naval Training School, Toledo, Ohio.

JAMES WESLEY BOLIN, of Martin, is a member of the Naval Reserves, and on last report was stationed in San Francisco.

OTEEY LADD BRATTON, of Centerville, is with the Mechanical Division of the Air Corps, according to an April news item.

DONALD THOMAS CANNON, of Greenfield, is with the Army Air Corps, 52 Pursuit Group, U. S. Army Air Base, Wilmington, North Carolina.

JAMES BENJAMIN COTHAN, of Rockvale, was at Maxwell Field, Alabama, when last heard from in March.

LEONARD HARVEY CROWE, of Edgemoor, enlisted last spring and was sent to Camp Wheeler for training.

WILLIAM HARRY DEATON, of Crockett Mills, has been in the army hospital at Denver, Colorado, for several months now. He visited the campus last month, and apparently is enjoying the rest and profit of the opportunity to build up; we have never seen Harry look so well. He plans to return for a time, after which he hopes to get into the thick of things once more.

JOE HAROLD HALEY, of Dresden, is a Yeoman in the U. S. Navy, at present stationed at Cristobal, Canal Zone.

FRANK O. HAMILTON, JR., of Selmer, when last heard from was trying for the Naval Air Corps, at Jacksonville, Florida. This was in May.

WILLIAM TRUETT JONES, of Martin, enlisted in April, 1942, as an airplane mechanic. He is now at Shepherd's Field, Texas, and writes home that he is working hard, but enjoying every bit of it.

EARL WAYNE KILLION, of Union City, is reported to be at Scotts Field, Illinois, taking flying training.

ERNEST R. MCGARRITY, of Tigrett, is Sergeant McGarrity of the Veterinary Hospital, Dept. 1, Fort Bragg, North Carolina.

JOSEPH BYRON MORRIS, of Ripley, was attending the Army Air Training School at Uvalde, Texas, when our last report was received in February.

CECIL RAYMOND ROBERTSON, of Westmoreland, is with the Army Air Corps at Maxwell Field, Alabama.

1941-1942

HOWARD REGAN DEATON, of Crockett Mills, is studying armaments at Lowry Field, Denver, Colorado.

CHARLEY MACK BERRY ('38-39) enlisted in the Marine Corps in January. He was sent to San Diego for training.

EARL MARTIN SHANNON ('32-35) and ELIZABETH CANADA ('34-36) were married in November 1941.

MRS. HERBERT J. HIDLEY, of Kenton, visited the Junior College April 15, accompanied by young John Hidley, aged one year. She attended the Junior College during the spring and summer terms 1934, after which she completed training as a nurse. Her name on the college records is Margaret Landrum. She now hopes to resume her college work next summer, while her husband is engaged in military work with the Douglas Aircraft Corporation.

MARY FRANCES LIPSCOMB, who spent two years at the Junior College, 1933-35, was married in Santa Fe, New Mexico, on March 1, 1942. Her new name is Mrs. Gailley B. Underwood, and for a time at least she will reside at 144½ East De Vargas, Santa Fe, New Mexico. For the past two years Mary Frances has been assistant librarian in the public library of Santa Fe, and as her husband expects to be called for army service in the near future, she will continue her position in the library.

WILLIAM A. JAMESON visited the campus April 6. He looked the part in Uncle Sam's uniform. He finished his training period at Maxwell Field and soon will leave his present site in Florida for "parts unknown." Our good wishes go along.

HENRY QUILLEN CROCKETT ('37-39) married Miss Evelyn Dougherty of Greenback, February 23, 1941, according to information we have received. He is employed at Alcoa.

I am attending Summer School at U. T. for the first six weeks. I think U. T. is a swell place and I'm having a grand time.

Mary Helen Sweeney. Since June 6 I have been loafing, planning to spend the remainder of the summer in Rockford, Ill., and then I'll be in Knoxville next fall.

Mary Ellen Lowe. I have been wondering what you were doing for pastime this summer, but I guess that you are kept busy. I am going to school at Knoxville, and am working out at the Farm Management office. I am going to school the next six weeks. I am going up next week and try to get into the Marine Reserve. I am majoring in Agr. Education and Animal Husbandry, and boy do I like this place called Knoxville. You should be up here for I know that you will like it here. I hope that this will be of help with your work. Service with a pleasure. A sincere friend, C. Alexander.

I am what is known as a workman these days, but I am taking time out later in the summer to do the music for a song contest sponsored through Song and Story Magazine. We expect to publish a folio of the winning songs, and I hope to get sheet music of other of my songs published.

Lewis Elliott. Well, now for where I am and what I'm doing—I am sitting at the kitchen table eating as usual, although it's 10:15 p.m., in a little white house on Jackson Street in

Gay Paree and wondering what you all are up to now. So far I have spent my summer at home but I hope to attend a young people's assembly at Lake Junaluska the 21st of July through August 1. Then in September I'll return to the campus of dear old U. T. J. C. Ann.

I am spending my summer at home working on the farm. Warren Clendenin.

I went to Natchez Trace for a few days, and had a grand time swimming, boating and sunning. I'm going to Mississippi next week. My plans for the rest of the summer? Incomplete. Wish I could see you all.

Mary James Clark. I am at home in Crockett Mills now. I plan to teach school in a four-teacher elementary school in Crockett County. I will start teaching the 15th of July.

Chastine Marlon. I am working at Camp Campbell, Clarksville, Tenn., with W. J. Riley Plumbing and Heating Company of Monroe, La.

Warner Berry. In reply to your card as to my work for the summer, I have done a great deal of pastoral work since the last quarter of school. For the last two weeks I have been painting some for the First Methodist Church of Martin. Next Sunday I start in revival meetings, and with the expectation of the first week in August, I will continue until the second Sunday in September.

David Olhausen. At present I am at home. I hope to get in the Army Air Corps later in the summer until the army gets me. I will work on some kind of defense work near Chicago, Ill.

Chas. Scooby. Thanks for the card. I'm glad to know that old U. T. J. C. is still the power house of West Tennessee. Since I've been home I've had the real chance to put into practice some of the more practical things that I learned during my two years there. What I mean is, I've been farming up a blue storm, etc. In about two months or sooner (only the draft board knows) I'll be in the big middle of some training camp somewhere in the U. S. Have already tried to enlist in the Navy V-7 and the Aviation Reserve, but my eyes are too punk. Hope to continue farming until enlistment.

Archie Sanford. I am employed with the Procter & Gamble Defense Corporation. I am tool clerk. I am also learning how to operate a multigraph machine so I can be lot clerk when our former lot clerk is drafted. I get a week's vacation starting the third of August. I am going to Washington, D.C. and then to Baltimore, Md. I don't have any future summer plans, because I guess Uncle Sam will probably have some for me before the summer is gone. I would appreciate it very much if you would send me one of the special summer issues.

Lee Tyree Neill. I appreciated your card—even if it was mimeographed. Mail from the Junior College does look good. I didn't know you were over there in summer school until I got your card. Are you still planning to teach this fall? I really am a hard-working gal. I've been made clerk in the Lincoln County Rationing Office and I do mean I'm being educated as to tires and sugar. Tell everyone hello for me, and write me a card in some weak moment.

Pat. In reply to your card received June 30 regarding what I am doing at present and what my plans are. I'm working with the post utilities at Camp Tyson, Tenn. I don't know how long I'll work there. I want to get a job with some engineering firm. I have in some applications and am looking for a call anytime. Am planning to enter school this fall.

Bill Ross. I am enrolled at Peabody College and taking courses at Peabody and Vanderbilt University. I am studying (and I do mean studying) math and two foreign languages. This fall I plan to start my second year of pre-med. I regret that U. T. J. C. does not offer but one year.

Mary Elizabeth Tate. I'm farming the good ole U. T. way, but I've registered, so I'm expecting to kill a few Japs soon.

Joe Eston Cooper. I am staying at home this summer with my mother. Doing nothing and getting plenty of sleep and rest. Hope to be at U. T. next fall.

Dorothy Overton. I am in school at the University of Tennessee at Knoxville for a six weeks term. My future plans are concerned with the U. S. Army Corps. I have passed the qualifying examinations and expect to be called within two months. Sooner I hope.

Charles Nickell. Your card concerning the summer issue of The Volette was forwarded to me. I'm in Washington, D.C. working at the Civil Service Commission. I'm enjoying every minute of my life here. Swell people, good times, lovely church. I'll be home for a week about September. All my love to everybody.

Ruth Hynds. I am in school this summer at Big U. T. I plan on going to school all this summer. I want to get in as much work as I can before Uncle Sam gets me.

Thomas W. Bond.

I hope this is on time. I am on a Methodist Youth Caravan in Southwest Texas. We will be gone eight weeks this summer, visiting different churches and working with the young people. I am having a wonderful time seeing Texas. Kay, are you having any fun at school? I suppose you are. I'd like to see you all. If you have any extra paper I wish you would send it to me at Trimble. Thanks. Corrine.

Answering your card of recent date. I am in the army now. Am home on furlough until Wednesday. I would write my address but I am not sure what it will be. I am at Fort Oglethorpe now, but will be transferred when I get back. I am in the Air Corps as a ground mechanic. My job is to "Keep 'Em Flying." Thanks again for the card.

William L. Pritchett. At present I am time keeper for a number of carpenters at Camp Campbell. The camp is about seven or eight miles out from Clarksville. I do not plan to work the full summer here. I appreciate the fact that you are interested in my summer plans.

Anon Black. In reply to your card. I am working for my father. I have drawn plans and also done some surveying for him. I am studying to be an engineer and this gives me some practical experience. I plan to go to Knoxville to school next fall. Engineering is a good course, a hard course, but fun if you like it. I like the work, but have a long road ahead before I finish.

Ira Long. Earl W. Killion is now in the army. He is stationed with the Radio Communications Branch in Patterson Field, Ohio. His address is Pvt. Earl Killion, Communications Branch, Air Service Command, Patterson Field, Ohio.

I received the card requesting information that you sent to all students. I am working for the U. S. Engineers in a survey party on levee work near Osceola, Ark. We are running crossing sections on the levee and bar pits and also final grades after the levees have been added to. As soon as another construction job starts I will most likely be on inspection duty. This fall I plan to go on to Knoxville. Hold U. T. J. C. down because I want to see it pretty soon.

Preston McDow. "Absence makes the heart grow fonder" and that's just how I feel about our Alma Mater. Stick to that college education 'till you get it so that we in the War Department, "Johnny Doughboys" and all, will not have sacrificed in vain.

Sara Garner. In reply to your card I'll say that I am at home now helping to keep the log rolling. I plan to begin teaching school July 13th. I sure do miss "the gung" and all activities on the campus, especially the swimming pool.

Jewel Smothers. I am at home at the present. I intend to enter Draughon's Business College in Memphis July 6. This will include my plans for the summer except for week end visits home. I'll be looking for The Volette.

Elwyn Fowler. In regard to your card regarding what I am doing this summer. I am working at the Wolf Creek Ordnance Plant at present. I am working with the P. & G. inspection department. It is nice work and I enjoy it. I am glad to be working in a defense plant.

William Baker. I am spending the summer at home, and am working for the Soil Conservation Service, U. S. Department of Agriculture. I am planning to enter the University of Tennessee at Knoxville this fall. I would greatly appreciate you sending me a copy of this issue of The Volette.

Jack Kahn. All of my time since school has been spent on the farm. My plans for the near future haven't been completed. If I can get in the Naval Reserves I'm going to school, otherwise, I'll probably land in the army.

Ray Porter. I have been thinking a lot about the Junior College students. I have been working a little, but mostly I have been having a good time. As yet I have no definite plans for fall, but will probably enter Knoxville or a business school. Surely would like to see everybody.

Lu Ella Robertson. I'm going to Draughon's Business College for the summer in Nashville. I sure would like to see all the summer school students. I know you are having a time. How is the faculty?

Sybil Beckham. Since Mary Louise is not here I'll write for her. Mary Louise is with a Methodist Youth Caravan in New Mexico. She spent one week in Fort Worth, Texas, training for the Caravan. In New Mexico she will be in the following places, one week each: Hobbs, Artesia, Fort Sumner, Estancia, Las Vegas and Albuquerque, getting back to Paris the second week in August.

Mrs. Chas. Pardue. I am spending the summer at our farm home near Charlotte, Tenn., canning, sewing for the Red Cross, and attending first aid classes. Later I will go to the 4-H Club camp at Ruskin Cave.

Myrtle Killian.

SABBATH ON THE CAMPUS

By JANE, PAT AND LYNN

"Gr-r-r-r-r-r-r!" stated the alarm clock that first Sunday morning when we three came to the Junior College. We turned drowsily to glower at the raucous reminder that now we—Pat, who is Patsy Crox, Lynn, who is Carolyn Blahop, and myself, who am, is, or are Jane Warren—were full-fledged college folks.

"Time to rise and get ready for Sunday school and church," Pat muttered through webs of sleep.

"We were encouraged diligently to search out our church and identify ourselves with it," I said sleepily, remembering the admission of some one in authority, maybe Mr. Phillips, or Mr. Allen, or someone—those two, we had heard, though not exactly preachers, now and then filled pulpits. Not many state schools have practically two ministers on the faculty.

So up we rose. We dressed and made ready. Pat belongs to the Christian Church. Lynn is a Methodist. I, Jane, am a Presbyterian. There are all three churches in Martin. Though none of us is Baptist, nevertheless there are two very imposing Baptist churches in town, and one of the congregations we hear is the largest of any denomination.

So, adorned in our best bib and tucker, Pat and Lynn and I signed out of Reed Hall and headed in the general direction of town.

"Does any one know where the Methodist Church is?" I, the practical-minded one of the trio asked.

"Why yes, I saw it from the bus-window as I came to town to enter college," Pat, the observant one, said. "It's across the railroad from the post office."

This led to some discussion as to the location of the post office. But our problem was solved in no time by a car driving up to the curb and stopping. "May I take you young ladies somewhere?" It was the genial voice of Mr. Phillips, who teaches education. He whisked us right over to the church and escorted us to the young people's class. And who should be teaching this class but another faculty member, Mr. Thompson, who teaches dairying and husbandry at the Junior College. Mr. Thompson interestingly discoursed on the connection between higher education and religious life.

Brother Mischke, the Methodist minister, was not filling his pulpit today; he is, we hear, in Chicago in some kind of school. But we are told he is tops in all this region; a very fine youthful minister and deeply interested in young people, especially college students. So in the regular year, we are sure, we shall be knowing more about him. But, then, all of the ministers in town are alert to the spiritual requirements of the student body, we hear; and from the cordial greeting we had it is easy to believe it.

After we were seated in church I whispered, "Did you ever see so many college teachers in one place except a campus?" Pat whispered, "Goodness, terere are Mrs. Gardner—she teaches up at the home ec building; Miss Hawkins, she is the head of the home ec department; Mr. Meek—he is the president of the Junior College—Mr. Hug—he is head coach—are they all here?" No; we saw Mr. Stanford and Mr. McMahan too.

That night we agreed to attend the Baptist Church, and there we saw Mr. Farrar, the English teacher; Joe Black Hayes, assistant coach, and another faculty member or two who are Baptists; and we listened to an impressive sermon by Dr. Cole, the regular minister.

We thought the music was lovely. A very fine organist enlivens the hour of worship by playing some of the more artistic popular tunes on the pipe organ. At first I was rather astonished. But Pat and Lynn thought it was a nice touch, a modern innovation.

That left us the Presbyterian Church to visit next, and the other imposing Baptist church on University Street. We haven't yet finished "visiting round," but Pat and Lynn and I will eventually make it. What we have been specially impressed by is the nice atmosphere of the town and college about religious matters. Practically everybody in town attends church on Sunday. The main churches are beautiful places. Students are encouraged to attend but never hounded, and you may go to your own church. There's nothing sectarian. Nearly all the faculty people are active in church work. Mr. Meek and Mr. Woods often on layman's day go out to preach. Mr. Meek, I was told, filled one of the big Mayfield, Ky., pulpits recently.

Preston McDow is with the U. S. Engineers in Memphis.

Andrew Adams is taking the special course in testing (armaments) at U. T.

O. D. Elam is taking the special course in testing (armaments) at U. T.

OPPORTUNITIES NUMEROUS TO WORK ONE'S WAY THROUGH SCHOOL

High school graduates looking around for a college to attend always inquire about chances of working a part or all of their way. Gene H. Stanford, business manager of the University of Tennessee,

"At the Junior College the opportunities are numerous for such students," Mr. Stanford said. "For instance, at this time the campus beautification and regular repair program is getting under way for the purpose in view of having campus and buildings in splendid shape for the fall opening. As customary in the past, students and prospective students are employed for this work. Students planning to enroll in the fall may earn during the two months of work enough to pay fees for several quarters. Students who work full time during the summer naturally find it easier to secure part-time employment when school opens. If a student has an inclination toward painting, carpentry, or just plain work, and is interested in a job prior to the opening of school in the fall, he should write to the Employment committee at once."

Mr. Stanford went on to say: "During the regular session students with limited funds will find numerous opportunities to secure part-time employment. Jobs, for young men especially, are numerous. The 300-acre farm provides much work of many kinds: milking, care of livestock, garden, orchard and greenhouse work. Young men from farms are able to find a ready market for their previous experiences. Students enrolled in agriculture courses find valuable experience in such part-time employment. Engineering students find employment in the engineering laboratories, repairing and care of the machinery as well as construction projects. Athletes find employment and good experience in the physical education department. Future scientists find employment in laboratories, and if a young man has a bent towards books, there is library work to do. Students are employed for all work about the campus, buildings, and farm which can possibly be done by them. In the town of Martin there are a number of jobs for young men at stores, filling stations, boarding houses and various businesses.

"For young women with limited funds, work can be found in offices, laboratories, the library, dining hall and residence halls, as well as in town.

"It is possible for students by working and by borrowing from the various student loan funds to pay their way.

"Students interest in employment this coming fall should write for application blanks at once. Address: Chairman, Students Employment Committee, University of Tennessee Junior College, Martin, Tennessee.

Junior College Students at Big U. T.

A conversation that pleased us no end is the one recently reported to Ye Editor of Ye Volette, between Mr. Meek and President Hoskins, on Mr. Meek's recent trip to Knoxville.

"Paul," prexy asked our Mr. Meek, "tell me, what do you do to your Junior College students out there?"

"Well," Mr. Meek replied, "we try to give them lots of work, keep them busy and happy, and then send them to you in as good mental and spiritual spirits as possible."

"Well," Dr. Hoskins went on, "you certainly do things to them which make them loyal to you out there. When Junior College students come here they frequently come to see me, and they never speak critically of your school. In fact, they are filled with good words for the Junior College. The other day," prexy went on, "an English professor came to me with some themes written by some of the former Junior College students. I read the papers. The students spoke in high praise of you out there. So," he concluded, "I just thought I'd ask what you did to them to grow such a bump of loyalty."

Then in his delightful way Dr. Hoskins went his way.

Now, what is it the Junior College does to get loyalty from its former students? Well, we're too modest to speak right out. But there is the personal touch, the small-school spirit which makes the little frog feel big in the pool instead of merely lost in the great waters; there is the excellent faculty; and last but not least, it would be unfitting of us not to mention about the swiftest hunch of earnest students that any college can boast of.

JOHN WILDER ('39-41) is now whole. He added the better half in January on New Year's Day, in fact, if our information is correct.

Honor Students At Junior College

Many Students Win Recognition
For Scholarship—Martin
Well Represented In
Honor Group

U. T. Junior College has announced the names of honor roll students for the spring quarter. Following are the names of the honor students and the honors conferred:

Summa Cum Laude: Zelma Pauline Faulkner, Marshall Lee Field, Charles Eugene Morris of Martin.

Magna Cum Laude: Sara Elizabeth Adams of Martin, James Edward Ashburn, Luther Lee Burkett, Grover Cleveland Callis, Wilton Leon Childers, Thomas Crutchfield Clark, Harry Dixon Claybrook, Betty Jane Cox, Charles Bailey Edwards, Rene Lee Elrod of Martin, Mary Arthur Estes of Dresden, Alice Sue Fairless, Opal Elwyn Fowler of Martin, Mary Elizabeth Fuqua of Martin, Elizabeth Warren Higgs of Martin, Ruth Holmes, Jack Henry Kahn, Dorothy Ann Kling, Jamie Lawler, Mary Annette Logan, Maurine McCalla, Preston C. McDow, Mary Elizabeth Miller, William Douglas Moore of Martin, Kathryn Elizabeth Moody, Camille Louise Mann of Martin, Russell Ray Porter of Greenfield, Tom Ryan Prewitt, Martha Mal Pybas, William McDougald Stott, Oswald Henry Thomas, Eunice Patricia Trigg, Wilbert Bernard Vincent, Mary King Webb of Dresden, Dalton Austin Wesson.

Cum Laude: Cooper Alexander, Mary Elizabeth Bailey, Virginia Barr, Iris Idelle Batson, Warner Robert Berry, Irene Elizabeth Bolln, Martha Jean Bomar, Mary James Clark, Ruthella Ferrell, Mable Agnes Franks, Ruth Elizabeth Harris of Dukedom, Walter Martin Higgs of Martin, Glenn Brown Hopper, Mary Sue Irvin of Dresden, Robert Torrey Kroll of Martin, Mary Ellen Lowe, Kenneth Stephenson McClain of Palmersville, David Olhausen of Martin, John Joseph Parran, Jr., Ethel Virginia Stephenson, Mary Helen Sweeney, James Rogers White.

Pigue Is Vultee Safety Engineer

Former Martin Boy Appointed To
Important Position With Big
Airplane Concern—Brothers
In Service

James A. Piguet, 22, son of Mrs. W. W. Piguet of Martin and the late W. W. Piguet, former Nashville newspaperman, who has been with Vultee Aircraft, Inc., was recently made safety engineer. His duties will be to handle an extensive safety program at the Vultee plant, to design safety guards for machinery, aid in the prevention of accidents and keep all employees safety conscious. His department works in conjunction with the medical department of the plant and has charge of the safety program for the entire organization which is educational instead of the enforcement of safety rules and regulations.

Burt Green is taking the special course in testing (armaments) at U. T.

Horace Warren is engineer for the Wolf Creek Ordnance Plant.

Edwin J. Matthews is taking a full course at U. T. and is also teaching Ag. Engineering 113. He will graduate in August.

Roy Benton Duck is in the U. S. Navy. He is M. M. first class on the ship Alcyone. He is some where in the Atlantic.

Herbert Dycus is employed in the City of Dyersburg as operating engineer in their power plant there.

Jack Powell is on his vacation in Mississippi.

Albert Swearingen is master gunner in the Anti-Aircraft Artillery of the Coast Guards and is now in Australia.

Gerald A. McMeans is running an instrument for TVA engineers on Appalachia Dam, N.C.

Mayhew-Smith

Miss Edith Caroline Smith daughter of Mr. and Mrs. A. P. Smith of Nashville, became the bride yesterday, June 25, of Dr. Paul D. Mayhew, son of Dr. and Mrs. W. E. Mayhew of Martin.

EDNA MAE STOVER is now Mrs. Frank Post. Her husband is employed at the post office in Knoxville, until Uncle Sam is ready for him.

A FRESHMAN IN THE HOME ECONOMICS DEPT.

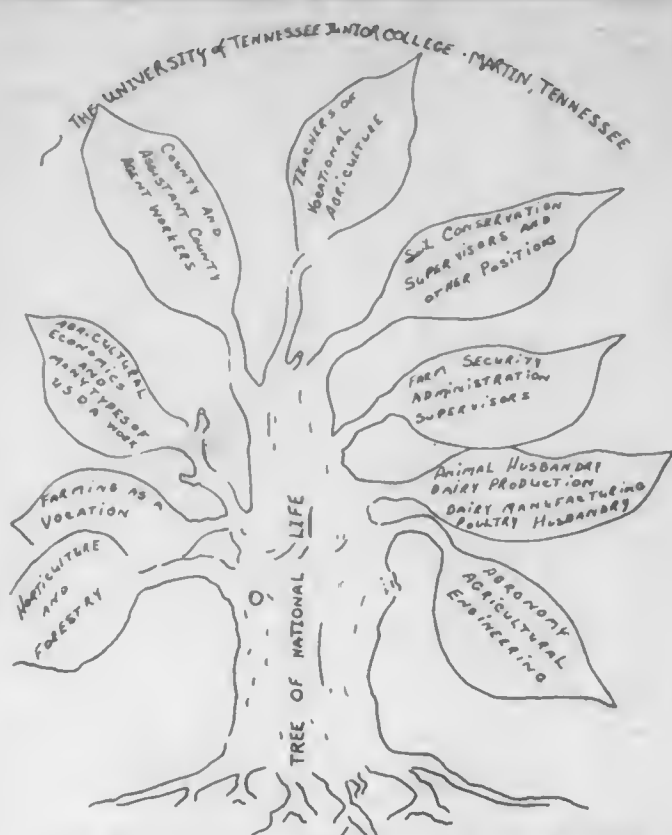

What could a freshman find more baffling than a house with a thousand doors to greet her as she enters the dreaded Home Economics building? Prunella opens the front door and is pleasantly surprised to find a beautiful arrangement of snapdragons, rather than the dragons she expected. She glances around and her eye catches the crack of Miss Hawkins' door and with surprise sees a nicely furnished office with the most pleasant faced lady seated at the desk. With trembling hands our heroine knocks upon the door and asks where to find the textile classroom. "Why, just go through the double doors, turn right, then left, back through the next room you will find two doors, take the one leading to the left and then turn right," says Miss Hawkins, who was very glad to give the needed information, remembering her own difficulty in finding the foods room. It was rumored she went into Bob's tool closet in search of her waiting pupils. Oh yes, Prunella must meet Bob, our faithful cleaner-upper of the home economics building. With these instructions she smiled bravely and lied, "Yes, Miss Hawkins, thank you, mam, I am sure I can find it." It is a blessing there were no Fibber McGee closets around for she would have surely found it, as she opened every door on the court. Finally, the angel of mercy in the form of Mrs. Gardner came out and claimed her stray pupil. Our new student was finding it easier now and settled down for two hours of work. Her first project is to be a cotton dress and she discusses the procedure with Mrs. Gardner. After selecting a pattern and deciding the type of material to be used she left for the foods class. This proved another ordeal. The first wrong door she went into was the art department. The pictures, vases and rugs and other artistic accomplishments of the former pupils fascinated Prunella beyond words. She decided at once if she ever found her way out she would sign up for art next quarter. Finding another door, she ventured further and found that she was in a beautiful living room furnished with two love-seats two large chairs and a lovely gate-leg table. On one side in is a welcoming fireplace. In the next room she sees the dining room and through its open door the kitchen is visible and with much glee she runs for it, reaching the door just as the bell rings. After spending two hours with Miss Swindler, the stoves, sinks and utensils she leaves with thoughts of the cake, cookies, pies and other tasty eatables which are to be made that quarter.

In the afternoon she returns refreshed and some happier. Finding the home nursing room with some trouble she is given an outline of the quarter's work, which will include bandaging, care of the sick and common home ailments. As she leaves through the nursery she finds the backdoor, leading into the playground and with much will power she passes the rocking horse and scurries over to the swimming pool for an hour's swim. Other Prunellas, this is only a summer school's routine. There will be more doing in the fall, but don't let that bother you as they can add many more doors.

MATHEMATICS AND PHYSICS

Mathematics and Physics, the sister sciences, are very popular these days. It is strange that it should take a war to convince some educators that training in these two fundamental sciences is essential to the existence of the American Way of Life. For too many years some of us have been following the easy course of study. Today our country is calling in vain for mathematicians, physicists, engineers and mechanics. The meteorologist or weather man is a physicist. The navigator is a mathematician, physicist and engineer. Mathematics and physics is the foundation of all engineering, and is really the foundation of all scientific and technical training. WE MUST TRAIN OUR BOYS AND GIRLS IN MATHEMATICS AND PHYSICS, not only in college, but in high school. Many a capable young man has presented himself at college in recent years with a desire for technical training, especially engineering, but could not take it because of insufficient credits in mathematics. For full admission to the freshman class leading to a B.S. degree in Engineering, the following mathematics units must be presented from high school: one and one-half units in algebra, one in plane geometry, and one-half unit in solid geometry. However, a boy may enter conditionally without the half unit in solid geometry.

JENNIE LOU GOWER ('39-40) is an inspector at the Vultee plant in Nashville.

The University of Tennessee Junior College is helping to prepare the young men of Tennessee to fill responsible places in these and many other branches of Agriculture.

At this season of the year there are thousands of rural boys in Tennessee who are completing their high school course of study. Many of these young men wonder what their next move should be. The question must be debated and answered in each individual's mind. In many instances the decision has already been made, in other instances it is yet to be made.

Each individual should ask himself the question, will it pay to go to college? In most cases the question can be answered in the affirmative.

If agriculture is to be pursued as a vocation, regardless of the type of work, a college education will pay good dividends.

From the professional standpoint there are many branches of agriculture. The student may prepare himself for work in vocational agriculture, dairy husbandry, dairy manufacture, forestry, entomology, agricultural economics, various branches of agronomy and horticulture.

In recent years there has been a good demand for well trained men in all branches of the field of agriculture. This demand no doubt will continue to grow in years to come.

The University of Tennessee Junior College is located in a de-

finitely agricultural section. It has been established and developed with that thought in mind. It is indeed an opportunity knocking at the door of each individual of this section who is truly interested in a better rural life.

The course of study outlined in the school of agriculture of the University of Tennessee Junior College is so arranged as to enable the student to complete his work for the B.S. degree in two years, at the University of Tennessee or any other standard university or college, after he finishes his two years course of study here.

The University of Tennessee Junior College offers many advantages to all young men who are interested in the agricultural course of study. Our graduates have proven themselves to be leaders as they take their places on the campus at Knoxville, and as they have entered upon their life's work after having received their degree.

It affords me much pleasure to invite you to become a member of our freshman class in the school of agriculture either this summer or fall. Feel free to call on us for any information that you would like to have regarding the department or the school.

An Evening Gown Among O. D. Suits

Consider yourself an evening dress that has attended thirty-eight soldier dances within the last year. Probably the first thing you would say is, "My, my, I'm positively worn out." Think of all the good times you have seen and all the times you have seen endured.

Let us recall the first dance when you were so new and your owner so radiantly happy. It was with your assistance that she caught the eye of that blonde Roman god that seemed to be around all summer after their first dance.

Many times have you heard the line, that only a soldier can give, whispered in a welcoming ear. The compliments that same gave were enough to make you turn even redder when you knew you were not the most stunning gown in the house. Then you hear your pleased wearer giggle coily saying, "Aw, no! this old dress." You know perfectly well she begged two hours only this afternoon to get you.

Now, you are old and after all the flattering compliments you caused her to receive, she sobs piteously for a new dress, but mom refuses and you are put on again with many a jerk and yank.

It seems you would be insulted and try to make her fall when some large footed animal steps on you with those G.I. shoes, but you are forgiving and you perk up as well as could be expected for your age.

Then comes the ordeal, Christmas is here and your rival is hanging in the closet, though your

owner never suspects. The time to dress for the big Christmas dance is right around the corner and you realize you will lose all attention after the new pink lace is brought forth, so you crumple even further in the corner in which you were thrown.

As you see the lovely dress on your old owner you feel very depressed and can only think of the rag bag you will soon occupy. Suddenly you are seized with anxious hands and pressed rapidly. When you have time to catch your breath you realize that you are being worn by your old owner's younger sister and that you are once again in circulation among Uncle Sam's olive drab suits.

ART 111

If anyone is looking for an interesting summer course in a cool building with a grand teacher, I suggest Art 111. There are six students taking this course and Miss Hawkins is the teacher. The aim of Art 111 is to teach the simple principles of design and color theory.

There are two lectures and four lab periods each week. In lecture Miss Hawkins explains the principles of art and the various projects which we will make in the lab. In lab each student works individually on some problem of design, color or craftwork. Some of the things which we have made are posters, finger paintings, place cards, letter charts, color charts and designs with oil paint, textile paint and crayons.

Art is a course which will be a benefit to everyone. It is a course which one can apply in his everyday life. Art enables one to do more beautifying the simple things of life, as well as the more unusual. We really have a grand time in art with an electric fan, good conversation and, believe it or not—many days delicious refreshments.
